### Gemini SLP Illuminator

**The UFO Gemini is a powerful, yet efficient fiber optic illuminator, powered by LED technology.**

Powerful light output combined with a very high color rendering index of >93, as well as cool and near silent operation make this unit the obvious choice when using fiber optics to illuminate exhibits in museum and gallery display cases.

With a 50,000 hour lamp life, using this illuminator means that costly and time consuming maintenance costs are reduced to almost nil.

Maximum flexibility is ensured with a DMX, 0-10V or manually controlled dimming system.

Fitted with a standard 30mm fiber port connector, this illuminator is suitable for both new installations and retro-fitting to existing fiber optic installations.

Description	
Port Connector Size	30mm diameter
Fiber Type	Glass/PMMA
Mains Supply Voltage	100-240V AC, 50-60 Hz. 0.12A
PSU Output	12V DC, 2A
LED Power	20W
Min Ambient Temperature	-10°C
Max Ambient Temperature	+40°C
CRI	>93
Luminous Efficacy	69 lm/W (typical)
Fan	60mm 12V crossflow
LED Type / Model	White light
DMX Control	User addressable 1 channel dimming and 1 channel on/off
Dimming	DMX, 0-10V or manually operated - 0 to 100%
LED Life	50,000 hours in ambient 25°C
Color Temperature °K	3000°K or 4000°K
Acoustic Rating	20dB
Enclosure Material	ABS
Enclosure Color	Light grey
Size (L x W x H)	222mm (8.74") x 114mm (4.49") x 81mm (3.19")
